

HEROPATH MVP DATA PLATFORM

DRIVEN BY DATA

WHAT IS THE VALUE?

HeroPath is a scalable and flexible end-to-end modern data platform, hosted on the Microsoft Azure cloud. Fueled by best-in-class components, our solution **Ingests** the right data, **Transforms** it into meaningful insights, and **Engages** you through interactive visualizations.

HOW DOES IT WORK?

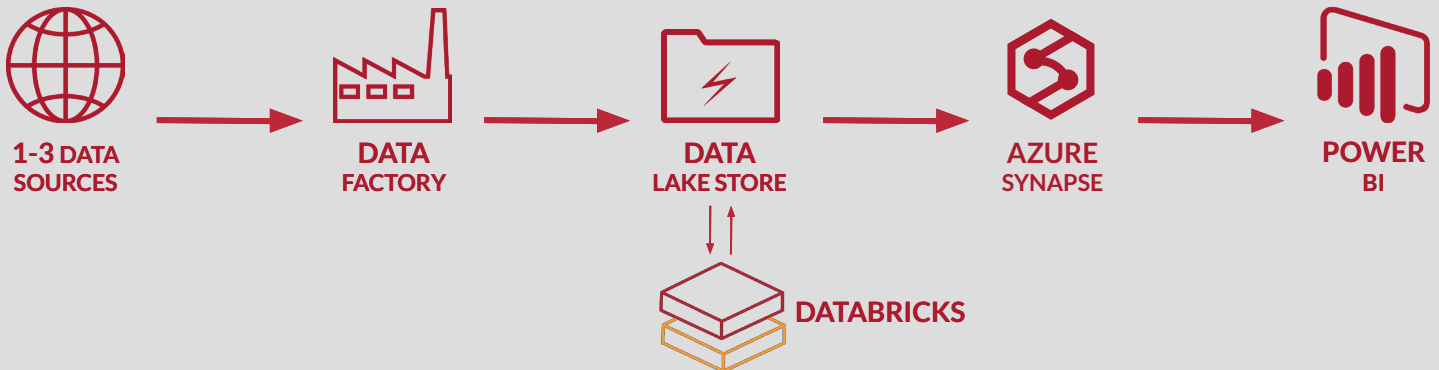

Our data experts will build you an MVP data platform in a single environment, using **1-3 carefully selected data sources**. Our pipeline ensures that you **get production-grade analytics, fast**. We leverage Simple SQL Database for storage and curation, Databricks for compute-intensive workloads and auto-scalability, and visualization tools such as PowerBI or Tableau to make your insights interactive and accessible.

DELIVERABLES

1. **Data pipelines** that are cloud-based and automated;
2. **Documentation** for Environment Set Up;
3. **Presentation and knowledge transfer session** (2 hours)

Our accelerated infrastructure can be stood up in just weeks, giving you what you need today and ensuring you can adapt for tomorrow.
